# VERTICALLY THINK CALLEY

To THINK VERTICALLY is to think creatively about heating solutions, to see new possibilities for bringing warmth to your customers. THINK VERTICALLY and you are no longer limited by horizontal wall space. You can fit warmth into entirely new areas, increase comfort and enhance the style of any room – without stretching the budget. We're thinking vertically when we think of the best heating solutions and our knowledge is always at your disposal. So, if you want to take indoor climate comfort to new heights talk to us. Together we can make it happen.

We'll always support you  
in finding the right way

We are always there to provide assistance with radiator selection, clear installation advice and all relevant technical support. And as the leading European partner within heating solutions, we make sure our radiators are stocked by a vast number of suppliers so you always have the freedom to THINK VERTICALLY.

Vertical radiators for  
vertical spaces

Just because wall space is limited, it doesn't have to be left cold and bare. Vertical radiators enable you to bring the highest levels of heating comfort to new areas of your customers' homes. Available in widths down to 300 mm and heights of up to 2300 mm, vertical radiators let you overcome all horizontal limits.

Not enough space  
for the right style?

VERTICALLY  
THINK

Vertical shapes and  
finishes to suit every taste

Vertical radiators add to the ambience of any room. Whether it's the classic panel lines of the Vertical panel radiator, the sleek profiles of the Faro, or the smoothness of the Kos, you can always give your customers heat that fits their style. Each model is available in a variety of colours and metallic finishes.

Not enough space  
in the budget for  
other possibilities?

**VERTICALLY**  
THINK

Vertical panel radiators  
won't stretch the budget

We supply a full range of standard vertical panel radiators. So when it comes to the move from horizontal to vertical, you don't have to worry about stretching the budget. This makes them an even more attractive option for your customers and gives you even more installation opportunities.

THINK

Kos V

The Kos V has perfectly smooth, flat front covers and beautifully curved sides.  
HEIGHT (mm) 1800 – 1950 – 2100  
WIDTH (mm) 300 – 450 – 600 – 750

Faro V

The combination of a profiled front and curved perforated side covers gives the Faro its clean and subtle style.  
HEIGHT (mm) 1800 – 1950 – 2100  
WIDTH (mm) 300 – 450 – 600 – 750

## A broad and high selection

Vertical panel radiator

The classic lines of this panel radiator make the Vertical panel radiator a source of comfort that is always pleasing to the eye.  
HEIGHT (mm) 1500 – 1800 – 1950 – 2100 – 2300  
WIDTH (mm) 300 – 450 – 600 – 750

Vertical radiators to fit every customer's need

All our vertical radiators come in RAL 9016 white as standard. Other RAL colours and metallic finishes are available on request.

Choosing from our three main vertical radiator models, the Vertical, Faro and Kos, you can offer your customers a high-output, easily-controllable heat source in the finish and style that they desire. They are available in a wide range of heights and in widths as narrow as 300 mm.

There's no doubt about  
the quality

It's warmth that's  
guaranteed to last

VERTICALLY  
THINK

Like all our heating solutions, our vertical radiators come with a 10-year guarantee. Corrosion and scratch resistant, they're built to look great and they provide great output too. Tell your customers about them, they'll appreciate that you can give them warmth that lasts.

You'll never be stuck  
with the wrong  
solution
