

Not enough space for the right style?

Now warmth fits perfectly into place

To THINK VERTICALLY is to think creatively about heating solutions, to optimise the space at your disposal. Overcoming horizontal limits, it will enable you to increase comfort and bring warmth into entirely new areas – without stretching the budget.

THINK VERTICALLY with our vertical radiator range and warmth will always fit perfectly into place. Available in widths down to 300 mm and heights of up to 2300 mm, our vertical radiators will let you take indoor climate comfort to new heights.

VERTICALLY

Not enough space for a radiator?

We're there to help you in the right direction

We are always there to provide assistance with radiator selection, clear installation advice and all relevant technical support. As we are the leading European partner within heating solutions, our radiators are stocked by a vast number of suppliers.

There are vertical shapes and finishes to fit every taste

When you THINK VERTICALLY you do more than bring perfect comfort to a room, you also enhance the look and feel of it. We supply vertical radiators in a wide selection of stylish forms and each model is available in a variety of colours and metallic finishes. Like all our heating solutions, our vertical radiators come with our renowned 10-year guarantee. Corrosion and scratch resistant, they're built to look great and they provide great output too.

VERTICALLY
THINK

All our vertical radiators come in RAL 9016 white as standard. Other RAL colours and metallic finishes are available on request.
