Purmo Group is Europe's Leader in sustainable indoor climate comfort solutions

Our heating and cooling systems are designed to offer the highest levels of comfort and efficiency.

Our vision

Comfort delivered is our promise to all our stakeholders. It's all about our dedication and our ability to deliver. About listening and responding to the needs of our personnel, our customers and end users.

Purmo Group delivers comfort by doing things smarter, by always moving forward, and by staying ahead of the competition.

We will drive the future of complete heating, cooling and ventilation solutions through state-of-the-art innovation – and we will continuously endeavour to ensure this is done in sustainable ways.

We are Purmo Group – Comfort delivered.

Our promise

Comfort delivered

The indoors. The place where we spend so much time – learning, sleeping, relaxing, sharing. It's where we live. That's why a healthy and comfortable indoor climate is so important. But in a world facing climate challenges, unprecedented population growth and a need to use resources better, ensuring sustainability is paramount.

Committed to innovation, we take a system and solution approach to delivering optimal heating offering the highest levels of comfort and energy efficiency. With our complete range and expert knowledge, we can help you find exactly the right solution. So, let's work together and create innovative solutions that will meet tomorrow's indoor climate challenges today. Let's advance indoor climates as we know them.

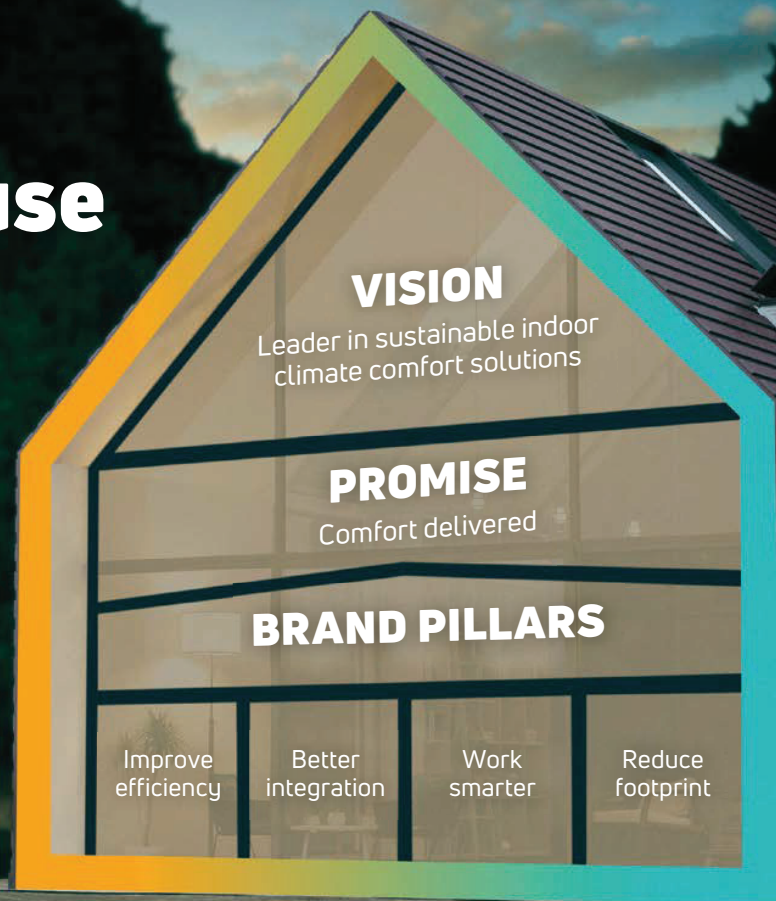

Let's create the great indoors.

comfort delivered by ...

Our trade brand house

Our commercial brand house is an overview of our vision and customer promise. The four brand pillars demonstrate how we plan to achieve this and define the change we want to drive.

Improve efficiency

Optimising energy efficiency through system accuracy

Better integration

Let's **integrate solutions** in innovative systems for better performance

Work smarter

Let's work together and **work smarter**

Reduce footprint

Let's focus on the full product life cycle and **reduce impact on our climate**

Add a little colour to your life

A little bit of colour can magically brighten up a room and what better way to complement an interior decor than with a colourful radiator? We offer an extensive range of colours for our Slieve, Adagio, Plaza and Pearl ranges and deliver within 6-8 weeks of ordering.

Colours for style and choice

Selected to complement the stylish design of our radiators, our colours reflect the beauty of contemporary trends like a breath of warm air.

From our sleek Champagne to our shimmering Matt Charcoal, our colours are extraordinary.

Coloured radiators held in stock

We understand that sometimes time is of the essence.

To help you, we stock a selection of the most popular sizes and colours.

For stocked colour pricing, please refer to the product pages.

LST

The Purmo LST Radiator consists of a panel radiator and a highly durable anti bacterial powder coated outer casing, manufactured from 1.2mm steel. The outer casing prevents contact with the hot surface of the radiator and also covers pipework. Surface temperatures are below 43°C with water inlet temperatures up to 82°C in accordance with NHS Estates Guidance Note 'Safe Hot Water and Surface Temperatures, 1998'. The robust outer casing can easily be removed to allow access for regular cleaning, maintenance and decorating.

The Purmo LST Radiator is particularly favoured for installation in nurseries, hospitals, nursing homes, sheltered housing and high-risk areas in the home.

- Available in three heights **572mm, 672mm and 872mm**
- Available in lengths from **420mm to 2000mm**
- Available as single panel, single convector (T11) and double panel, double convector (T22)

Features

- Durable powder coated in white RAL 9016 paint for a brighter, whiter finish
- Full 10-year warranty for both the casing and radiator
- Manufactured and tested to BS EN 442

Emitter Height - B (mm)	300	400	600

Important: It is advisable to leave a further 5mm clearance above any final floor covering to allow for easy fitting and removal.

LST - n-Coefficients

Type	Height (mm)		
	572	672	872
11	1.3475	1.3423	1.3318
21	1.3320	1.3260	1.3140

Control Options

A range of Purmo thermostatic radiator valves is available enabling the temperature of individual rooms to be automatically and precisely controlled.

Direct Fit TRV Kit

Available for all LST's **except 420mm wide**. Suitable for TBOE connection only. This kit allows a Purmo TRV to be mounted directly onto the internal radiator, making it an integral part of the LST radiator. This option utilises the 38mm knock out in the LST casing.

The kit comprises:

- 1 x Horizontal angle TRV body
- 1 x TRV head
- 1 x Extension adaptor
- 1 x Plastic bush
- 1 x MATCHMASTER lockshield valve

To Order: PLSTDIRECTKIT

Close Coupled TRV Kit

Available for all LST's **except 420mm wide**. Suitable for TBOE, TBSE or BOE connections. This kit allows the Purmo TRV to be mounted directly onto the LST casing, with a choice of positions for both the TRV head and TRV angled valve body. This option utilises the 23mm knock out on the LST casing.

The kit comprises:

- 1 x TRV head*
- 1 x TRV angled body*
- 1 x LST capillary unit/actuator /sensor head adaptor
- 1 x MATCHMASTER angled lockshield valve
- 1 x Locking tool

To Order: PLSTCCKITUK

Universal Close Coupled TRV Kit

Available for all LST's. Suitable for TBOE, TBSE or BOE connections. This kit allows the Purmo TRV to be mounted directly onto the LST casing, with a choice of positions for both the TRV head and TRV straight valve body. This option utilises the 23mm knock out on the LST casing.

The kit comprises:

- 1 x TRV head*
- 1 x TRV straight body*
- 1 x LST capillary unit/actuator /sensor head adaptor
- 1 x MATCHMASTER straight lockshield valve
- 2 x Integration elbows

To Order: PLSTUNIKIT

*15mm compression copper only - for 1/2" iron pipe, an additional female adaptor is required.

COMPLA HORIZONTAL

Compla Horizontal is a premium panel radiator. Stylish and modern, with the technological benefits of a Compact radiator, Compla Horizontal gives the perfect combination of design appearance and performance.

- Available in four heights **300mm, 400mm, 500mm and 600mm**
- Available in nine lengths from **400mm to 2000mm**
- Available as single panel, single convector (T11) and double panel, double convector (T22)

Features

- Durable powder coated in white RAL 9016 paint for a brighter, whiter finish
- Full 10-year warranty
- Manufactured and tested to BS EN 442

4 x 1/2" BSP tappings. Suitable for Bottom Opposite End (BOE), Top Bottom Opposite Ends (TBOE) and Top Bottom Same End (TBSE).

All Ligna radiators:

Test Pressure 13 bar.

Max operating pressure 10 bar.

LIGNA VERTICAL

Ligna Vertical is a modern twist on a traditional panel radiator, with a lined effect adding style to substance. Available in a variety of sizes. Easy to clean, robust and comes with pre-fitted curved side panels without compromising top-quality performance.

- Available in two heights of **1800mm and 1950mm**
- Available in four lengths from **300mm to 750mm**
- Available in **Type 22 only**

Features

- Durable powder coated in white RAL 9016 paint for a brighter, whiter finish
- Full 10-year warranty
- Manufactured and tested to BS EN 442

UNDERFLOOR HEATING

Why underfloor heating?

Comfort Delivered

Heat is provided from the floor up providing optimum comfort conditions.

Effective Heating

The majority of the output is radiant, which is very effective even at slightly lower temperatures.

System Efficiency

A reduction in air movement results in efficiently heating the space we live in rather than having high temperatures above head height.

Temperature Control

Greater temperature accuracy can be achieved due to having individual thermostats controlling each room.

Design Freedom

Underfloor heating turns the floor area into a heat emitter therefore giving complete design freedom of wall space.

FIXING SYSTEMS

Purmo offer a range of fixing systems that are ideal for smaller areas, extensions or even refurbishments.

Applications	Clips	Cliprail	Low Profile	Plated	Cement Board

SLIEVE

A popular choice amongst households, the Slieve with its smooth front panel combines designer style with exceptionally high heat outputs. Available in horizontal and vertical models, Slieve complements a range of interiors without compromising on performance.

Horizontal

- Available in five heights from **288mm to 723mm**
- Available in ten lengths from **500mm to 2000mm**
- Available in 5 types (**H10, H11, H20, H21 and H22**)

Vertical

- Available in three heights from **1600mm to 2000mm**
- Available in nine lengths from **288mm to 868mm**
- Available in type **V10 and V20**

Features

- Durable powder coated in white RAL 9016 paint for a brighter, whiter finish
- Available in our 9 colours
- Full 10-year warranty
- Manufactured and tested to BS EN 442

22	4.90	7.31	8.50	9.71	12.21

Note: the distance between the connection centres equals the length of radiator.

Sieve Vertical - Single Panel V10			
Radiator Height (mm)	1600	1800	2000
Water Content Per Element/Tube (L)	0.95	1.03	1.16

Sieve Vertical - Double Panel V20			
Radiator Height (mm)	1600	1800	2000
Water Content Per Element/Tube (L)	1.89	2.13	2.36

Vertical Sieves have a factory fitted centre baffle as standard in the bottom header for Bottom Opposite End (BOE) installation only. Horizontal Sieves are supplied without baffles and cannot be installed Top Bottom Same End (TBSE). All tappings ½" BSP.

All Sieve Radiators: Test Pressure: 5.2 bar Max Operating Pressure: 4 bar

ADAGIO

Adagio goes beyond a traditional column radiator with its flat panels in 35mm and 70mm widths. Available in horizontal and vertical designs, its clean lines and sleek finish guarantees style in any room. Choose from single or double columns.

Adagio 35 - Horizontal

- Available in one standard height of **600mm**
- Available in five lengths from **630mm to 1995mm**
- Available in **single and double** flat columns

Adagio 35 - Vertical

- Available in one standard height of **1800mm**
- Available in four lengths from **420mm to 630mm**
- Available in **single** flat column only

Adagio 70 - Vertical

- Available in two heights from **1800mm and 2000mm**
- Available in six widths from **320mm to 680mm**
- Available in **single and double** flat columns

Features

- Durable powder coated in white RAL 9016 paint for a brighter, whiter finish
- Available in our 9 colours
- Full 10-year warranty
- Manufactured and tested to BS EN 442

PEARL

Pearl is a towel radiator designed to make a statement. Its unusual flat horizontal tubes provide a wider drying surface and deliver excellent heat outputs. The ideal complement to the modern bathroom.

- Available in three heights from **770mm to 1785mm**
- Available in two widths **500mm and 600mm**

Features

- Can be converted to electric for use during warmer months by adding an electric element, see page 61
- Durable powder coated in white RAL 9016 paint for a brighter, whiter finish
- Available in our 9 colours
- Manufactured and tested to BS EN 442
- Full 5-year warranty

Electrical Elements

Towel Warmer Options - Electrical Elements

The Pearl and Crystal can be fitted with an electrical element which allows you to use the rail as an electric towel warmer in the summer when the central heating is off. With their lower energy requirement towel warmers are efficient, economical and provide flexibility, convenience and comfort at little added cost. Thermostatic elements provide an adjustable temperature control when required. All electric elements are covered by a 2-year warranty.

General specification

Material & Finish

Our radiators are manufactured from high quality steel, and are finished with Epoxy Polyester powder paint. Every radiator undergoes an intensive pre-treatment process to protect against rust.

Quality

Our radiators are manufactured to ISO9001 Standards, achieving EN442 compliance and every product undergoes rigorous testing and quality control before they leave our factory.

Packaging

Our radiators are supplied either in a heavy-duty reinforced cardboard box or wrapped in heavy duty polythene with top and bottom polystyrene box ends.

Safety Precautions

Radiators are hot when in use, and as such, present a risk of burns to users on prolonged contact. The temperature of a radiator is dependent on the temperature of the system water, as set by the system installer or user. Installers and users should ensure that those who may come into close

proximity to hot radiators are aware of the risk of burns. Installers and users should take all necessary steps to minimise the risks of burns.

If the risk is significant, consideration should be given to installing low surface temperature radiators, or to placing guards in front of the radiators.

Fixings

For the correct installation of radiators it is essential that the fixing of the radiator is carried out in such a way that it is suitable for intended use AND predictable misuse. A number of elements need to be taken into consideration including the fixing method used to secure the radiator to the wall, the type and condition of the wall itself, and any additional potential forces or weights that may happen to be applied to the radiator, prior to finalising installation.

IN ALL CASES IT IS STRONGLY RECOMMENDED THAT A SUITABLY QUALIFIED PROFESSIONAL INSTALLER OR SIMILAR TRADESPERSON CARRIES OUT THE INSTALLATION.

PLEASE NOTE: The fixing materials provided are only intended for installation on walls made of solid wood, bricks, concrete or on timber-frame stud walls where the fixing is into the timber. All walls being considered should have no more than a maximum of 3mm wall finishing. For walls made of other materials, for example hollow bricks, please consult your installer and/or specialist supplier.

ONCE AGAIN, IF YOU ARE UNSURE, IT IS STRONGLY RECOMMENDED THAT A SUITABLY QUALIFIED PROFESSIONAL INSTALLER OR SIMILAR TRADESPERSON CARRIES OUT THE INSTALLATION.

Application

Most Purmo products are for use on 2 pipe pumped indirect domestic and commercial central heating installations, with a maximum working temperature of 100°C. The system should be designed in accordance with BS EN 12828:2003 or BS EN 12831: 2003 as appropriate, with particular care taken to avoid air entry or water discharge.

We do not recommend the use of single feed indirect cylinders, as the possibility of aeration due to water interchange may lead to corrosion. The installation work must be carried out in accordance with recognised good practice, and precautions taken to avoid contamination which could lead to corrosion.

If a corrosion inhibitor or other water treatment is to be used, the Manufacturer's Instructions must be strictly followed.

The recommendations of BS 7593, Code of Practice for treatment of water in domestic hot water central heating systems, should be followed where appropriate.

When fitting any heat emitter in an extremely high humidity environment (for example a swimming pool area or sports changing facility) products manufactured from steel should be avoided.

Product warranty

Thank you for purchasing a Purmo Group (UK) Ltd (Purmo Group) product. Your Purmo Group product has been designed and tested to give you many years of trouble-free service. For your additional peace of mind, Purmo Group gives the following Warranty. Your statutory rights are not affected by this Warranty.

Subject as provided below, Purmo Group warrants to the original purchaser at the original installation site that its products will be free from defects in materials and workmanship for the following periods:

- **Radiators:** 10 years from date of purchase.*
- **Radiator Valves:** 2 years from date of purchase.
- **Hydronic Underfloor Heating:** 10 years for the pipe from date of purchase. 2 years on controls and 12 months on the UFH pump from date of purchase.
- **Towel Warmers - Hydronic:** 10 years from date of purchase.

*Any radiator installed in high humidity areas (such as bathrooms etc.) are subjected to a twelve month warranty only.

The original purchaser's remedy for breach of this Warranty is expressly limited to repair or replacement of any part or parts found to be defective under conditions of normal service and use during the above Warranty period and does not extend to Purmo Group being liable for any incidental, special or consequential damages or losses whatsoever, such as loss of use of the product, inconvenience or lost profits.

This Warranty does not cover any defect, damage or malfunction in the product which is due to: failure to comply in any respect with Purmo Group's installation, maintenance or operating instructions; faulty storage, handling, installation or repair; mis-use; neglect; accident; abuse; or general wear and tear.

Before this warranty can be activated, the original purchaser will be required to prove, with supporting documentation, the date and place of purchase, as Purmo Group may need to conduct its investigation into the alleged defect. This should be within 28 days of the date when the defect was discovered or ought to have reasonably discovered the defect.

Purmo Group reserves the right to make a reasonable charge for inspecting and testing any product which is subject to a Warranty claim and the rights conferred by the Warranty are conditional upon the payment of such charge. The charge may be made, at Purmo Group's discretion, either before or after the inspection and testing of the product. In the event that it is established to Purmo Group's reasonable satisfaction that a valid Warranty claim has been made in respect of the product, then any inspection charge which has been paid will be refunded in full by Purmo Group.
